Obtained this letter to Hoover today from Archives. It is the request for CE 2640, the "search" for curtain rods found in TSBD. Note the late date and the proposed extent of the search--asking one man about them.

But the introduction to the first sentence gives it all away. Rankin does <u>not</u> say "In order to establish <u>whether any</u> curtain rods were found..." He says "In order to <u>establish that no</u> curtain rods..." Was this a big hint to Hoover?
